

Sample Process Outline – Dog Boarding Intake and Care

Service: In-Home Dog Boarding

Material: N/A (Live Animal Care)

Role: Dog Sitter

Prepared by: Abbey Cohen

Date: 2026-04-05

Overview

Trigger: A client submits a boarding request or inquiry for dog care services.

End State: Dog is safely returned to the owner, care is completed, and follow-up communication is sent.

Inputs/Materials Required

- Dog boarding request (app/text/direct message)
- Dog food, leash, medications (provided by owner)
- Emergency contact information
- Dog care instructions (feeding, behavior notes, routines)
- Boarding environment (home setup, supplies)

Phase 1 – Client Inquiry and Screening

1. Receive booking request or inquiry from client
2. Review requested dates, dog breed, size, and care needs
3. Evaluate availability and compatibility (schedule, environment, other pets)

Decision Point:

- If not available or not a good fit → decline request
- If acceptable → proceed to information gathering

Phase 2 – Information Gathering

1. Request key details from owner:
 - Feeding schedule
 - Medication instructions
 - Behavioral traits (aggression, anxiety, etc.)
 - Emergency contact information

2. Clarify any missing or unclear information

Exception Handling:

- If information is incomplete → follow up before confirming booking

Phase 3 – Meet and Greet (if applicable)

1. Schedule and conduct meet & greet with dog and owner
2. Observe dog behavior and interaction with environment

3. Confirm expectations with owner

Decision Point:

- If concerns arise (behavior, compatibility) → decline booking
- If acceptable → proceed to booking confirmation

Phase 4 – Booking Confirmation and Preparation

1. Confirm booking dates and care instructions
2. Prepare home environment (clean space, designate dog area)
3. Ensure necessary supplies are ready

Phase 5 – Dog Drop-Off

1. Owner drops off dog and supplies
2. Review care instructions again verbally
3. Confirm feeding schedule, routines, and emergency contacts

Phase 6 – Daily Care Routine

1. Feed dog according to schedule
2. Provide walks, exercise, and attention
3. Monitor behavior, appetite, and overall health
4. Send updates (photos/messages) to owner

Decision Points:

- Dog refuses food → wait and retry; notify owner if persistent
- Behavioral issues → adjust environment; inform owner
- Signs of illness → escalate to owner and/or vet

Phase 7 – Issue and Exception Handling

1. Minor issues → monitor and communicate with owner
2. Moderate issues → adjust care and notify owner
3. Emergency → contact owner immediately; seek veterinary care if needed

Phase 8 – Pickup and Completion

1. Owner picks up dog and belongings
2. Provide summary of dog's stay (behavior, eating, activity)

Phase 9 – Post-Stay Follow-Up

1. Send follow-up message thanking the client
2. Provide any final notes or observations
3. Request review/feedback (optional)
